THE BOARD OF THE CITY OF LYNNWOOD, WASHINGTON, TRANSPORTATION BENEFIT DISTRICT, DO RESOLVE AS FOLLOWS:

Section 1. Current Purpose and Need.

The Governing Board of the District (the “Board”) hereby finds that the best interests of the inhabitants of the District require the District to impose a sales and use tax through this
Resolution in the amount of two-tenths of one percent (0.2%) pursuant to RCW 36.73.040(3)(a) and RCW 82.14.0455 for the purpose of providing a portion of the funds necessary to finance transportation improvements.

The following items are identified as transportation improvements:

1) Preventative and routine pavement maintenance and reconstruction which extends the life cycle of the street pavement section, including but not limited to pavement repair, sub-base reconstruction, overlay, chip seal, and patching;
2) Street and traffic maintenance and operations, including but not limited to signing, striping, sidewalks, and traffic signals; and
3) Other projects as identified in the City’s Transportation Plan.

The cost of all necessary design, engineering, financial, legal and other consulting services, inspection and testing, administrative and relocation expenses, and other costs incurred in connection with the foregoing TBD improvements shall be deemed a part of the costs of the TBD improvements.

The Board shall determine the application of moneys available for the TBD improvements so as to accomplish, as nearly as may be practical, all of the TBD improvements. In the event that the proceeds of sales and use taxes authorized herein, plus any other money of the District legally available therefore, are insufficient to accomplish all of the TBD improvements, the Board shall use the available funds for paying the cost of those portions of the TBD improvements deemed by the Board most necessary and in the best interests of the District.

The Board shall determine the exact locations and specifications for the elements of the TBD improvements as well as the timing, order, and manner of implementing or completing the TBD improvements. The Board may alter, make substitutions to, and amend the TBD improvement descriptions as it determines is in the best interests of the District consistent with the general descriptions provided above and in accordance with the material change policy adopted by the Board and the notice, hearing, and other procedures described in Chapter 36.73 RCW, including RCW 36.73.050(2)(b), in each case as the same may be amended from time to time.

If the Board shall determine that it has become impractical to acquire, construct, or implement all or any portion of the TBD improvements by reason of changed conditions, incompatible development, costs substantially in excess of the amount of sales and use tax proceeds estimated to be available, or acquisition by a superior governmental authority, the Board shall not be required to acquire, construct, or implement such portions. If all of the TBD improvements have been acquired, constructed, implemented or duly provided for, or found to be impractical, the Board may apply the sales and use tax proceeds (including earnings thereon) or any portion thereof to other transportation improvements then identified in the City’s Transportation Improvement Program in accordance with the material change policy adopted by the Board and the notice, hearing, and other procedures described in Chapter 36.73 RCW, including RCW 36.73.050(2)(b), in each case as the same may be amended from time to time.
Section 2. Findings of Fact.
