DRAFT 3-19-2015
1 INTRODUCTION
INTRODUCTION

BACKGROUND
On February 26, 2001, Lynnwood City Council adopted Ordinance No. 2320, establishing the Office of Economic Development and identifying policies and actions to implement economic development. Since that time the City has worked with community residents, businesses, and interested partners and stakeholders to achieve economic development as a core mission.

On November 22, 2004, the City Council adopted Lynnwood’s first Economic Development Action Plan. The goals, actions strategies, and implementation activities contained in that document were subsequently incorporated into the City of Lynnwood Comprehensive Master Plan. This policy foundation and aspirational document was prepared through community engagement and recommendations from the community and business advisory group. The importance of economic development was further embraced by City Council on January 26, 2009 with the adoption of Lynnwood Moving Forward: Our Community Vision. Included throughout the Vision are economic development goals to help guide Lynnwood’s future.

The 2004 Action Plan culminated in a number of Strategic Themes for Lynnwood, including:

- celebrating a diverse population;
- maintaining the City’s retail prominence;
- diversifying the local economy, fostering entrepreneurship; enhancing neighborhoods;
- developing amenities that support a high quality of life.

Many of the recommendations that were developed in the plan any have since been successfully implemented.

The City has taken significant steps toward implementation of the City Center plan, including ongoing market analysis, project prioritization, and implementation of a Planned Action Ordinance and development incentives. The proposed development of 308 apartment units by the Senior Housing Assistance Group is the first new mixed-use housing project within the City Center zone. This development project is the first in the City Center to utilize the tax abatement program recommended in the 2004 Action Plan.

The City has also facilitated redevelopment at a large site on Highway 99 (Lynnwood Crossroads) and is in the planning stages of a project at the former site of Lynnwood High School (Lynnwood Place). The planned light rail station near Interstate 5 in the City Center will follow soon.

Lynnwood has enhanced the City’s branding and image and redesigned its logo, incorporating these updates into the City’s website and promotional materials. Great strides have been made in coordinating permitting functions and creating a “one stop” permitting center.
2014 UPDATE
As with all policy documents, findings and direction should periodically be reviewed and updated to address circumstances that change over time. On November 10, 2014, Mayor Nicola Smith convened an Economic Development Advisory Group to identify economic development topics/issues appropriate to assist with the implementation of the citywide vision. The EDAG served to review the community profile, and to provide recommendations to the Mayor and City Council regarding economic development goals, action strategies, and implementation activities. This effort affirmed that the focus of economic development is a citywide priority, involving many residents, geographic areas, and businesses, in the Lynnwood community.

Since the 2004 Profile and Action Plan, Lynnwood’s demographic composition and economic drivers have evolved. Lynnwood in 2014 is more ethnically diverse, with a growing Hispanic population. Lynnwood’s population is also aging, and residents aged 55+ account for a larger percent of all residents now than in 2000. These and other demographic changes are occurring as overall population growth is slowing.

The City remains a job center and a major retail shopping destination for the region. Forecasts call for more robust job growth over the next 25 years than in most cities in the region, across a number of sectors.

While Lynnwood has maintained its retail prominence, the reliance on taxable retail sales has been tested due to the combined effects of Washington’s Streamlined Sales Tax provisions, enacted in 2008, and the Great Recession.

This update of Lynnwood’s 2004 Economic Development Action Plan will help residents, policymakers and other stakeholders understand how the trends associated with Lynnwood’s economic position relative to other cities in the region can translate to opportunities. This report presents Lynnwood’s Vision, Goals and Actions for Economic Development from 2014 through 2020 and beyond based on a refresh of the City’s Economic Profile. These Goals and Actions will enable informed, coordinated policy, programmatic and regulatory decision-making aimed at achieving Lynnwood’s Vision.
ORGANIZATION OF REPORT
This Economic Development Action Plan summarizes Lynnwood’s updated Economic Development Profile and synthesizes the resulting Strategic Themes from that document with Lynnwood’s Community Vision to arrive at a set of Goals and Actions for Economic Development. The content in this document is divided into four major sections:

Lynnwood in 2014 summarizes data and analytics related to the people and economy of Lynnwood—who they are, where they come from and how the population is changing, as well as information related to race, ethnicity, educational attainment; and income and analysis of key industries, wages and commute patterns for workers and residents and job forecasts as well as taxable retail sales and the impact of sales taxes on the City’s overall fiscal health.

Our Community Vision draws on and re-presents Lynnwood’s 2009 Visioning process and resulting document.

The Economic Development Goals & Actions section is the heart of this document and articulates four Economic Development Goals aimed at achieving the City’s Vision, as well as Activities and Programs to achieve these Goals.

Implementation presents potential timing, funding and responsible parties to implement the Activities and Programs outlined in the preceeding section.
LYNNWOOD IN 2014

2 LYNNSWOOD IN 2014
LYNNWOOD IN 2014

BACKGROUND & PURPOSE
This 2014 Lynnwood Economic Profile presents an analysis of Lynnwood’s demographic trends, its local economy and its relationship to the regional economy. The report is an update to a 2004 Economic Profile and is intended to help residents, policymakers and other stakeholders understand the trends and opportunities associated with Lynnwood’s economic position relative to other cities in the region. Comparison cities were selected to represent neighboring cities, cities with similar characteristics such as population and incomes and larger reference cities to help with understanding possible growth scenarios. This analysis provides decision makers with perspective and context for policy, programmatic and regulatory decisions toward achieving Lynnwood’s vision. The information in this report will be used to inform the City’s update of the Lynnwood Economic Development Action Plan.

POPULATION & DENSITY
Since its incorporation in 1959, Lynnwood has grown from a city of 6,000 in an area of three square miles to over 36,000 people in more than 7 square miles. Edmonds and Mountlake Terrace lie adjacent to the west and south; Lynnwood’s Municipal Urban Growth Area (MUGA) is to the north and east. Growth in land area has historically been tied to annexations.

Growth in land area and population have both slowed in recent decades and Exhibit E1 indicates that population projections for Lynnwood show slower growth than the region as a whole. At the same time, parts of Lynnwood’s Municipal Urban Growth Area are projected to grow rapidly. Lynnwood’s housing density is moderate when compared to the region. Single family neighborhoods are typical with multifamily housing clustered east of Highway 99.

AGE & EDUCATION

Lynnwood’s population is aging; residents aged 55+ account for a larger percent of all residents now than in 2004. Since 2004, the 55+ age segment has grown by 23%. Compared with other areas in the region, Lynnwood has the third highest percentage of total population comprised of those aged 55 and over (behind Edmonds and Bellevue).

Fewer of Lynnwood’s residents (27%) have a bachelor’s degree or higher when compared with Edmonds or Bothell (40%-50%). However, the share of Lynnwood residents who hold a bachelor’s degree or higher grew 21% from 2000, an increase that outpaces the 13% growth rate in the greater MSA. Exhibit E2 illustrates educational attainment levels for Lynnwood and selected comparison cities.

INCOME & DIVERSITY

Lynnwood is ethnically and racially diverse, with growing Hispanic and Asian populations. Between 2000 and 2011 Lynnwood’s non-white population increased 29%. Currently more than one-third of the total population is non-white. Residents identifying as Asian compose the largest non-white racial category at 18% of the population.

Overall, 27% of Lynnwood’s residents are foreign-born. Nearly half come from Asia, and almost one-third come from the Americas (predominantly from Mexico). Thirty-three percent of residents speak a language other than English at home, and Spanish accounts for the largest portion of non-English languages spoken.

Lynnwood’s Median Household Income of $47,700 is lower than comparison cities [Exhibit E3]. Median income is less than 80% of the Area Median Income for the Seattle-Bellevue Fair Market Rent Area, which the U.S. Department of Housing and Urban Development uses to determine eligibility for subsidized housing.

WORKFORCE

Lynnwood’s workforce lives throughout the region; no single jurisdiction in the region houses more than 9% of Lynnwood’s workers. Lynnwood residents tend to work in large, concentrated employment centers on the east and west sides of Lake Washington, predominantly north of Interstate 90. Economic development strategies should balance the needs of a workforce that commutes to the City from places across the region, as well as the needs of residents who commute to regional employment centers.
EMPLOYMENT & WAGES

Lynnwood is one of the larger job centers in Snohomish County, and the City is likely to grow in stature as a regional employment center in the future. Jobs in Lynnwood are concentrated in Retail as well as the fast-growing Services sector. Overall, Lynnwood’s employment is poised to grow much faster than its housing stock.

Lynnwood is a net job importer with a Jobs-to-Housing ratio of 1.7, and is a significantly larger employment center than neighboring cities of Edmonds and Mountlake Terrace. More Retail jobs are located in Lynnwood than in any other jurisdiction within Snohomish County. The Retail sector accounts for 28% of total employment in Lynnwood. However, average annual retail wages are low at less than $29,000 a year.

Service sector jobs account for the largest portion (45%) of Lynnwood’s employment, with annual average wages of $38,000. The Finance, Insurance and Real Estate (FIRE) sector, which pays much higher wages than either Services or Retail (an average of over $60,000 annually), has lost about 500 jobs in Lynnwood since 2004. Currently FIRE accounts for 6% of the jobs in Lynnwood.

FISCAL IMPACTS

Lynnwood is a regional leader in taxable retail sales per capita, averaging nearly $55,000 per capita in 2012. Sales tax revenues account for more than 30% of the City’s budget, making it the largest single source of revenue for the City. The 2008 recession, combined with a change in the way sales tax is collected in the State of Washington, initiated a decline in Lynnwood’s taxable retail sales. Overall taxable retail sales have fallen by 5% since 2002.

RETAIL TRADE ANALYSIS

Trade capture analysis shows how local retailers attract customers. Trade capture in Lynnwood is highest in stores that sell clothing and clothing accessories, with nearly 100% of household spending on these items by residents who live within eight miles of City Center. Lower trade capture in performing arts and spectator sports, food services and drinking establishments, and hospitality, suggest opportunities to grow the City’s entertainment offerings.

FORECASTS & TRENDS

The 2008 recession had an impact on all regional and local economies. Lynnwood, however, has remained a significant job center for Snohomish County and the central Puget Sound region, and employment is returning to pre-recession levels. Employment forecasts indicate that between 2012 and 2040 total employment in Lynnwood will grow by 2.9% annually, adding more than 29,000 additional jobs in the City [Exhibit E4]. The FIRE-Services sector is expected to add the most jobs and to experience the fastest growth, a Compound Annual Growth Rate (CAGR) of 3.6%. Most of this growth is expected to occur in the eastern portion of Lynnwood, in and around the Regional Growth Center and City Center.

Exhibit E4. Observed & Projected Growth in Employment by Major Industry Sector, Lynnwood, 2000-2040
Housing affordability is a concern for Lynnwood. Lynnwood has the highest share of residents spending more than 30% of their gross income on housing (an affordability guideline set by HUD) of any comparison city studied [Exhibit E6].

Housing

Lynnwood had 15,235 housing units in 2012. Multifamily units accounted for more than 40% of all housing in Lynnwood [Exhibit E5], higher than in Bothell, Edmonds, and Mountlake Terrace. However, single-family units compose the majority at 60%. Overall, 94% of Lynnwood housing units are occupied. Multifamily housing is increasingly desirable to both younger and older Americans as they prefer flexibility in living arrangements and accessibility to transit.

TRANSPORTATION
25% of Lynnwood residents commute via a mode other than driving alone; 15% of these walk, bike or carpool while 10% take public transportation - more than in any other comparison city but SeaTac. The share of those using public transit to commute to work could increase with the completion of light rail, scheduled to open in 2023.

MARKET ANALYSIS
After slowing during the recent recession, real estate developers in Puget Sound are once again actively developing new projects and Lynnwood is capturing a share of those projects. Over 2,200 housing units are currently in the pipeline for the City and its Municipal Urban Growth Area (MUGA), with the majority of the development occurring within the MUGA (rather than inside City limits).

City Center is intended to anchor new commercial and residential development. While the market for retail development is stronger in Lynnwood than in Snohomish County as a whole, the market for office development suffers from higher vacancy rates. However, these office vacancy rates are declining, suggesting opportunities for growth in the office market.
STRATEGIC THEMES

This Economic Development Profile articulated a number of key themes that emerged from the data and analyses to inform the development of Goals and Actions in this report.

Accommodating Forecasted Growth
Though the City is not expected to grow rapidly in population, the increasing presence of multifamily housing and the significant growth in Lynnwood’s potential annexation areas require the City to think strategically about where and how new growth can integrate into the existing fabric of its neighborhoods. New development can create powerful community assets.

Harnessing the Power of a Diverse Community
Ethnic restaurants, cultural festivals and international districts are just a few of the opportunities that diverse populations bring to the cities they live in. Lynnwood is already one of the more diverse communities in the region, with large populations of Asian and Mexican origin. As the City and the region continue to diversify, Lynnwood can work with its residents to develop a strong communal identity.

Focus on Housing & Amenities That Attract New Workers & Residents
While many Lynnwood residents find housing difficult to afford, housing is relatively affordable in Lynnwood when compared to the region. New housing projects can bring additional affordable units to Lynnwood, but developing mixed-income communities and attracting new residents that work in a diverse range of industries is the best long-term strategy for increasing prosperity for Lynnwood residents.

Identifying Opportunities to Grow Mixed-use Centers
Employment projections predict robust job growth in Lynnwood through 2040 and over 2,000 multifamily units are already in the development pipeline in Lynnwood and its Municipal Urban Growth Area. The City Center has significant untapped zoned capacity, giving Lynnwood a chance to bring new employers to the City and entice new workers to live near their place of employment.

Diversification of the City’s Economic Base
Services and Retail will remain a large part of Lynnwood’s economy, with the Services sector projected to grow faster than any other in the City. A limited uptick in Manufacturing in the area and the continued presence of office employment represent opportunities to further diversify the economic base in Lynnwood.

The Changing Face of Retail
New developments in Lynnwood—including Lynnwood Place, Lynnwood Crossroads and the City Center Senior Living Apartments—indicate that the real estate market favors walkable, mixed-use development. New amenities and capital improvements can help pave the way for new retail development, and Lynnwood’s development regulations should encourage this style of retail. Market metrics indicate that new retail development is feasible, with favorable lease and vacancy rates compared to Snohomish County.

Capitalizing on Investments in Infrastructure
Existing development activity in the City Center and the coming light rail station, scheduled for completion in 2023, present an opportunity to promote geographic diversity in the City’s employment, attract new employers, and decrease the negative externalities associated with commuting via personal automobile.
OUR COMMUNITY VISION
A vision statement offers a common framework for action and focus among decision makers. Once a vision is in place, decision makers can work toward a set of shared goals. A vision statement is a “living document” and as such it is essential to review and update the vision as necessary. Once a city has envisioned what it wants to be, it can begin to consciously work toward that goal.

The City of Lynnwood will be a regional model for a sustainable, vibrant community with engaged citizens and an accountable government.

Bellevue-based Sterling Realty Organization (SRO) owned the property since the early 1960s and originally operated a movie theater on it. The theater closed in the 1980s and served as a warehouse until site preparation began for Lynnwood Crossroads in 2012. SRO acquired adjacent parcels with the intent of eventually establishing a retail destination on the site. The $25 million, 12.5 acre project offers about 123,000 square feet and 13 stores, including retailers, services and restaurants, are currently open, with another three slated to open early next year.

Planned Action Ordinance

In an effort to streamline the permitting process for City Center development projects that are consistent with Lynnwood’s vision and applicable development regulations, the City Council in 2012 extended “planned action” status to such projects. This allows these projects to go through a simplified environmental review process, since the City Center plan has already filed a planned action environmental impact statement to assess environmental challenges and implement mitigation measures. The planned action ordinance represents a thorough approach to facilitating the type of development envisioned in the City Center subarea plan.
