**Land Use Application Cover Sheet**

File Name: ________________________________  
File Number: ________________________________

**Instructions for Applicants**

Please read and follow all instructions on your application carefully. If you have any questions about the process or your project, it is strongly recommended that you speak with staff prior to submitting your application to help ensure that processing can advance in a timely manner. Every application must include this cover sheet, the application/checklist and all required items, and a notarized affidavit of ownership (if applicable).

**Specific Type of Land Use Application to be submitted (check all that apply):**

Project Design Review Applicant Checklist – All Districts

Please read and follow all instructions carefully. Thorough completion of this checklist will assist in processing your application in an efficient manner.

Project Design Review (PDR) is required for multiple-family, commercial, industrial and other nonresidential projects. This checklist provides the full written text of each design guideline and must be completed and submitted with the PDR Application.

Some guidelines use the word “shall” while others use the word “should.” The “shall” statements are absolutely mandatory and offer relatively little flexibility unless choices are provided within the statement itself. Mandatory elements and are indicated on this checklist in bold and with an “M.”

Guidelines using the word “should” must be satisfied but are meant to be applied with some flexibility. The City is open to design features that are equal to or better than the guideline as stated. The Community Development Director may approve departures from guidelines with “should” statements, pursuant to LMC Section 21.25.150, upon written request by the applicant and a finding that the proposal provides equivalent or superior results to the original guideline.

Read the text carefully to determine whether the proposal complies with the guideline, does not comply with the guideline, or if the guideline is not applicable. Every guideline in the applicable section(s) of the Lynnwood Citywide Design Guidelines must be addressed by the applicant in a brief typed statement. An electronic version of this checklist may be found online at: http://www.ci.lynnwood.wa.us/Content/Business.aspx?id=933.

Visual examples of specific guidelines are available within the published version of the Lynnwood Citywide Design Guidelines available online at: http://www.ci.lynnwood.wa.us/Content/Services.aspx?id=936.

Please be advised that additional information may be required during the review process in order to respond to or resolve particular issues. No application shall be considered complete if any of the required information is missing.
**SITE GUIDELINES**

**Location of Parking Lots**

**Intent:** To provide parking lots in areas that are as visually unobtrusive as possible.

Please describe compliance with the design guidelines in a separate, typed statement. In situations where the proposal does not comply, please describe how the proposal provides equivalent or superior results to the original guideline.

**Parking Lot Landscaping**

**Intent:** To reduce the visual impact of parking lots through landscaped areas, trellises and/or other architectural features that compliment the overall design and character of developments.

1. The parking lot landscape should reinforce pedestrian and vehicular circulation, especially parking lot entrances, end of driving aisles, and pedestrian walkways leading through parking lots.
   - Not applicable  
   - Complies  
   - Does not comply

2. Low walls and raised planters (a maximum height of 3 feet), trellises with vines, architectural features or special interest landscapes should be used to define entrances to parking areas. Where signs are placed on walls, they should be integrated into the design and complement the architecture or character of the other site features.
   - Not applicable  
   - Complies  
   - Does not comply

3. Landscape plant material size, variety, color, and texture within parking lots should be integrated with the overall site landscape design.
   - Not applicable  
   - Complies  
   - Does not comply

4. **One tree shall be provided for every 10 parking stalls to be located within the interior parking lot landscape areas.**
   - Not applicable  
   - Complies  
   - Does not comply

**Site Landscaping**

**Intent:** To provide variety and special interest within landscaped areas, to integrate the entire site into the overall landscape design and to reduce the visual impact of development on adjacent uses.

1. Landscape areas should reinforce pedestrian and vehicular circulation routes and entrances.
   - Not applicable  
   - Complies  
   - Does not comply

2. Plant material should include a variety of seasonal colors, forms, and textures that contrast or compliment each other with a mixture of evergreen and deciduous trees, shrubs, groundcover and low-maintenance perennials. Continuous expanses of uniform landscape treatment along an entire street front should be avoided.
Please describe compliance with the design guidelines in a separate, typed statement. In situations where the proposal does not comply, please describe how the proposal provides equivalent or superior results to the original guideline.

<table>
<thead>
<tr>
<th></th>

<tr>
<td>6</td>
<td>All areas not devoted to required landscape areas, parking lots, structures, or other site improvements, should be planted or remain in existing non-invasive vegetation.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>7</td>
<td>Perennials and/or annuals should be provided to highlight pedestrian areas such as building and/or site entrances, public open space, plazas and pedestrian connections. Note: This guideline is not applicable to industrial districts.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>8</td>
<td>River rock, gravel, driftwood, and similar non-living materials should not be used as groundcover substitutes, but may be allowed as accent features within landscape planting areas so long as the area covered by such features does not exceed 5% of the total landscape planting area.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>9</td>
<td><strong>Automatic irrigation shall be provided in all required landscape areas.</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td>10</td>
<td><strong>Landscape planting areas located between commercial or industrial districts and any residential district shall provide a 100% sight-obscuring year-round buffer using plant material or a combination of a fence (maximum 6 feet high) and plant material.</strong></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Please describe compliance with the design guidelines in a separate, typed statement. In situations where the proposal does not comply, please describe how the proposal provides equivalent or superior results to the original guideline.

11 A maintenance plan, including on-going tasks and schedules, shall be submitted to the City for review for all landscape areas, to include:

- Litter pick-up
- Mowing turf
- Weeding planting beds
- Removing noxious weeds
- Sweeping
- Replacement of dead or dying plant material
- Irrigation repair/adjustments
- Trimming hedges

☐ Not applicable  ☐ Complies  ☐ Does not comply

12 Tree selection within all landscape areas, including street trees, shall consider existing utilities, lighting, existing and proposed signage, adjacent trees, existing natural features, tree root growth, solar access, planting area width, and overall height of trees selected at maturity.

☐ Not applicable  ☐ Complies  ☐ Does not comply

13 Trees within the street frontage buffer should be located near the street right-of-way to help contribute to a more pedestrian friendly streetscape environment.

☐ Not applicable  ☐ Complies  ☐ Does not comply

Lighting

Intent: To ensure that lighting contributes to the character of the site and does not disturb adjacent developments and residences.

1 Lighting should complement other lighting elements used throughout and surrounding the site, such as pedestrian pathway lighting, and lighting used in adjacent developments and the public right-of-way.

☐ Not applicable  ☐ Complies  ☐ Does not comply

2 All lighting should be shielded from the sky and adjacent properties and structures, either through exterior shields or through optics within the fixture.

☐ Not applicable  ☐ Complies  ☐ Does not comply
Project Design Review Applicant Checklist – All Districts

Please describe compliance with the design guidelines in a separate, typed statement. In situations where the proposal does not comply, please describe how the proposal provides equivalent or superior results to the original guideline.

3  The use of accent lighting is encouraged but should be combined with functional lighting to highlight special focal points, building/site entrances, public art and special landscape features.
   □ Not applicable  □ Complies  □ Does not comply

4  Lighting used should contribute to the overall character of the surrounding community, site architecture or other site features.
   □ Not applicable  □ Complies  □ Does not comply

5  Lighting used in parking lots shall not exceed a maximum of 30 feet in height. Pedestrian scale lighting shall be a maximum of 16 feet in height.
   □ Not applicable  □ Complies  □ Does not comply

6  Lighting design should comply with the Illuminating Engineering Society of North America’s Recommended Practices and ANSI Standards: Lighting for Exterior Environments, latest edition, for each applicable lighting type (such as for a parking lot or walkway).
   □ Not applicable  □ Complies  □ Does not comply

Pedestrian Connections

Intent: To create a network of safe and attractive linkages for pedestrians.

1  Clearly defined pedestrian connections shall be provided between:
   □ Not applicable  □ Complies  □ Does not comply
   • Public rights-of-way and building entrances
   • Parking lots and building entrances

2  Pedestrian connections should be clearly defined by providing a combination of two or more of the following:
   • 6 inch vertical curb
   • Trellis
   • Special railing
   • Bollards
   • Special paving
   • Low seat wall and/or other architectural features
   • A continuous landscape area, minimum of 3 feet wide on one side of the walkway, except where the walkway
Please describe compliance with the design guidelines in a separate, typed statement. In situations where the proposal does not comply, please describe how the proposal provides equivalent or superior results to the original guideline.

CROSSES VEHICULAR TRAVEL LANES

- Pedestrian scale lighting, bollard lighting, accent lighting, or a combination thereof to aid in pedestrian way-finding

☐ Not applicable  ☐ Complies  ☐ Does not comply

3 Pedestrian connections shall not be less than 5 feet wide.
M

☐ Not applicable  ☐ Complies  ☐ Does not comply

4 Where a building entrance is located on or near the corner of two street right-of-ways, a pedestrian connection shall be provided from that corner to the building entrance.
M

☐ Not applicable  ☐ Complies  ☐ Does not comply

Walls and Fences

Intent: To mitigate walls and fences by providing variety and other visual interest.

Page 11

1 Fences and walls should be visually permeable and have a desirable appearance from both sides. Where solid, vision-obscuring fences or walls are required by the Lynnwood Municipal Code, one or more of the following shall be used:

- A variety of vegetation, such as trees, shrubs, groundcover and/or vines adjacent to the fence or wall
- Trellises or vine panels
- Architectural detailing, contrasting materials, or other items of special interest
- A variety of fence and wall angles and heights to add visual interest and character

☐ Not applicable  ☐ Complies  ☐ Does not comply

2 Walls and fences should be constructed of materials that complement adjacent architectural styles.

☐ Not applicable  ☐ Complies  ☐ Does not comply

3 Chain link fences shall not be allowed except around sport courts.
M

☐ Not applicable  ☐ Complies  ☐ Does not comply

4 Solid walls and fences used adjacent to a street right-of-way should be a maximum of 4 feet high. Walls and fences may extend up to a maximum height of 6 feet provided they are at least 90% visually permeable, such as open rails, ironwork, trellises or a column/gate treatment.

☐ Not applicable  ☐ Complies  ☐ Does not comply
### Marking Gateways and Prominent Intersections

**Intent:** To highlight gateway areas and prominent intersections as a focal point within the community.

**1.** Developments adjacent to gateways and prominent intersections should be marked with visually prominent features (see the Lynnwood Zoning Map for locations).

<table>
<thead>
<tr>
<th></th>
<th>Not applicable</th>
<th>Complies</th>
<th>Does not comply</th>
</tr>
</thead>
</table>

**2.** Visually prominent features shall include three or more of the following:

- Public art
- Monuments
- Special landscaping treatment
- Open space or a plaza
- Water feature
- Special paving or surface treatments
- Unique pedestrian scale lighting or bollards

<table>
<thead>
<tr>
<th></th>
<th>Not applicable</th>
<th>Complies</th>
<th>Does not comply</th>
</tr>
</thead>
</table>

**3.** Elements used shall be oriented towards both pedestrians and vehicles along the street right-of-way.

<table>
<thead>
<tr>
<th></th>
<th>Not applicable</th>
<th>Complies</th>
<th>Does not comply</th>
</tr>
</thead>
</table>

**4.** Elements used should not block the visibility of adjacent businesses and/or vehicular sight distance requirements.

<table>
<thead>
<tr>
<th></th>
<th>Not applicable</th>
<th>Complies</th>
<th>Does not comply</th>
</tr>
</thead>
</table>

### Natural Features and Green Corridors

**Intent:** To integrate natural features into developments and create a network of green corridors throughout Lynnwood.

**Pages 13-14**

**1.** Natural features, both within or adjacent to a development, should be integrated into project designs in one or more of the following ways. Other sustainable techniques may also apply, as approved by the City:

- Establish view corridors to natural features, framed by landscape or architectural treatments
- Provide controlled visual access, such as view overlooks
- Provide environmentally sensitive pedestrian connections to or throughout natural features, such as boardwalks and pedestrian bridges
- Continue plant materials used adjacent to natural features into other areas of site development to soften the transition between the natural and built environment

<table>
<thead>
<tr>
<th></th>
<th>Not applicable</th>
<th>Complies</th>
<th>Does not comply</th>
</tr>
</thead>
</table>
Please describe compliance with the design guidelines in a separate, typed statement. In situations where the proposal does not comply, please describe how the proposal provides equivalent or superior results to the original guideline.

2 Existing significant trees should be retained where possible. If more than 20% of all existing significant trees are retained within a development, and are located outside environmentally sensitive areas and associate buffers, overall landscape requirements of the area in which the significant trees are retained may be reduced by 10%.
   □ Not applicable  □ Complies  □ Does not comply

3 Elements of natural features or stands of existing (noninvasive) vegetation should be extended through developments to form a network of green corridors between adjacent site developments throughout Lynnwood.
   □ Not applicable  □ Complies  □ Does not comply

4 Stormwater facilities, such as detention ponds and biofiltration swales, should be integrated into the overall project design. Stormwater facilities should provide a more natural overall form and/or appearance through layout, design and landscape treatment. Stormwater facilities may be located within perimeter buffer areas provided the total required square foot areas of the buffer and a minimum 5 foot width is maintained.
   □ Not applicable  □ Complies  □ Does not comply

BUILDING GUIDELINES

Prominent Entrance

Intent: To ensure that building entrances are easily identifiable and clearly visible from roads and sidewalks.

Page 15

1 Principal entry to the building or store shall be marked by at least one element from Group A and one element from Group B:
   Group A
   ▪ Large entry doors
   ▪ Recessed entrance
   ▪ Protruding entrance
   Group B
   ▪ Canopy
   ▪ Portico
   ▪ Overhang
   □ Not applicable  □ Complies  □ Does not comply

2 Some form of weather protection should be provided over the entry.
   □ Not applicable  □ Complies  □ Does not comply
**Screening Rooftop Equipment**

**Intent:** To have rooftop features which contribute to the character of individual buildings and the neighborhood as a whole.

1. Any mechanical, electronic, or communication equipment mounted on the roof shall be properly screened.

| M | Furthermore, screening should be organized, proportioned, detailed and colored to be both an integral element of the building as seen from the points of high elevation, streets, and adjacent residences. Note: There may be exceptions for public safety communication devices. |
|   |   |
|   | Not applicable | Complies | Does not comply |

2. Rooftops of buildings could include landscaped decks or terraces designed in such a way that mechanical equipment, elevator overruns and stair towers are housed within structures that are part of the composition of the building.

| M |   |
|   | Not applicable | Complies | Does not comply |

**Treating Blank Walls**

**Intent:** To mitigate blank walls by providing visual interest.

1. For walls visible from a street or residential area, if an uninterrupted expanse of blank wall longer than 30 feet (100 feet for industrial districts) is unavoidable, a combination at least one element from Group A and one element from Group B shall be used to cover a minimum of 50% (30% for industrial districts) of the blank wall:

   - **Group A**
     - Artwork, such as a low relief sculpture or mosaic
     - Landscape area and/or a vertical trellis with climbing vines

   - **Group B**
     - Architectural detailing, reveals, or indentations
     - A mix of different materials, colors, and textures
     - Pedestrian-oriented features such as lighting, awnings, or canopies

| M |   |
|   | Not applicable | Complies | Does not comply |

**Minor Accessory Structures**

**Intent:** To reduce the impact of accessory structures and have the structures contribute to the character of the main building.

1. Accessory structures should be screened by landscaped features or solid wall. Structures and walls should use materials with such color and texture that match with the character of the main building.

| M |   |
|   | Not applicable | Complies | Does not comply |
Please describe compliance with the design guidelines in a separate, typed statement. In situations where the proposal does not comply, please describe how the proposal provides equivalent or superior results to the original guideline.

**Marking Gateways**

**Intent:** To enhance the identity of the city by marking major entrances.

**Page 19**

1. Buildings along gateways (see the Lynnwood Zoning Map for locations) shall be designed to emphasize their gateway location.

   - [ ] Not applicable
   - [ ] Complies
   - [ ] Does not comply

2. Buildings along gateways should be given major architectural expression in facades, roof forms and massing, such as larger bulk, tower forms, peaked roofs, and over-sized windows.

   - [ ] Not applicable
   - [ ] Complies
   - [ ] Does not comply

**Materials**

**Intent:** To ensure that the character of the city is perceived as high quality.

**Page 20**

1. Buildings should use solid, permanent, low-maintenance materials to add variety, permanence and richness to buildings and streetscapes.

   - [ ] Not applicable
   - [ ] Complies
   - [ ] Does not comply

2. Plywood shall not be used as an exterior surface.

   - [ ] Not applicable
   - [ ] Complies
   - [ ] Does not comply

3. Exposed concrete walls shall be painted or given an architectural finish.

   - [ ] Not applicable
   - [ ] Complies
   - [ ] Does not comply

**SIGN GUIDELINES**

**Integration with Architecture**

**Intent:** To ensure that signage is part of the overall design of a project and not additive or an afterthought.

**Page 21**

1. The design of buildings and sites shall identify locations and sizes for future signs. As tenants install signs, such signs shall be in conformance with an overall sign program that allows for advertising which fits with the architectural character, proportions, and details of the development. The sign program shall indicate location, size, and general design.

   - [ ] Not applicable
   - [ ] Complies
   - [ ] Does not comply
Please describe compliance with the design guidelines in a separate, typed statement. In situations where the proposal does not comply, please describe how the proposal provides equivalent or superior results to the original guideline.

2 Signs shall not project above the roof, parapet, or exterior wall.
M
☐ Not applicable ☐ Complies ☐ Does not comply

Creative/Artistic Elements

Intent: To encourage interesting, creative and unique approaches to the design of signs.

1 Signs should be creative, expressive, and individualized.
☐ Not applicable ☐ Complies ☐ Does not comply

2 Signs should convey the product or service offered by businesses in a bold, graphic form.
☐ Not applicable ☐ Complies ☐ Does not comply

3 Any sign that meets this criteria may be allowed to be 30% larger than the Lynnwood Municipal Code otherwise allows.
☐ Not applicable ☐ Complies ☐ Does not comply

I/We ________________________________________________________________, owner(s) of the property commonly known as __________________________________________, do hereby apply for approval of Project Design Review for the above-referenced property. I/We certify that the information provided in this application, including all submittals and attachments, is true and correct to the best of my/our knowledge.

Project Design Review Application

Project Design Review is required for multiple-family, commercial, industrial and other nonresidential projects. A Land Use Application for a Project Design Review is deemed complete when it is accompanied by the required items identified below. Please be advised that additional information may be required during the review process in order to respond to or resolve particular issues. No application shall be considered complete if any of the required information is missing. The Community Development Director may approve departures from the guidelines, pursuant to LMC Section 21.25.150, upon written request by the applicant and a finding that the proposal provides equivalent or superior results to the original guideline. The Community Development Director may waive any of these items, pursuant to LMC Section 1.35.015(A), upon written request by the applicant and a finding that the item is not necessary to review the application. Additional copies of certain items will be required later in the process.

7. A landscape irrigation plan.

8. A landscape maintenance plan.

10. A site lighting plan, including lighting placement, product specifications and a footcandle lighting matrix.

11. Product specifications for all pedestrian amenities, such as benches.

12. Photographs of the site.

13. Color photographs or digital perspectives of the proposal showing the surrounding context.

14. A colors and materials board showing all proposed colors and materials.

15. A vicinity map, showing the location of the site in relation to nearby streets and properties.

16. A copy of all recorded documents pertaining to the subject property.

17. A summary table of project statistics, including site area, building coverage, coverage by impervious surfaces, required and proposed parking, etc.

18. A list of other permits that are or may be required for the development of the property as known to the applicant at the time of submittal.

19. A list of permits that are to be processed concurrently with this application.

20. If the project is to be developed or occupied in phases, a schedule for each phase.

21. A complete copy of each applicable Design Guidelines checklist.

22. Two (2) sets of reduced copies (no larger than 11 by 17 inches) of all plans and oversized documents.

23. A completed SEPA application, unless the project is categorically exempt from SEPA review.

24. A complete, notarized Affidavit of Ownership for all property owner(s) of the involved property, with original signatures.

25. Application fee(s).

FEES See LMC 3.104 or contact our office for current fee information.

NOTES 1. The approval of a Project Design Review Application does not in any way replace, modify or waive any requirement for the compliance of the proposal with other applicable codes, standards, or regulations including, but not necessarily limited to, those of the Building, Fire or Public Works Departments. You are advised to contact these departments concerning such requirements.

2. Design plans need to be developed to the point that compliance with decision criteria and guidelines are clearly evident.

3. Approval expires two years from the date of the final decision unless the applicant begins construction.
or submits to the city a complete building permit application for the proposed development (LMC 21.25.165). The Community Development Department Director may grant a single one-year extension to this time limit, provided a written request for an extension is received before expiration. The applicant must substantially complete construction for the development approved under Project Design Review and complete the applicable conditions listed in the decision within five years of the date of the final decision (LMC 21.25.165).

4. It is the responsibility of the owners, applicants and agents to become aware of the requirements of Title 21-Zoning of the Lynnwood Municipal Code. It is strongly encouraged that a pre-application conference with the City staff be scheduled prior to submittal of an application.

5. An application may be amended only in writing.

6. Optional consolidated review: Per LMC 1.35.080, projects involving two or more land use applications filed at the same time may be “consolidated” upon written request by the applicant at the time of submittal. When applications are consolidated for review, the entire package will proceed using the process involving the highest decision-making authority. For example, for a project involving a Project Design Review application and a Rezone application, both applications would have a final decision issued by City Council. It is strongly recommended that you speak with a staff member about consolidated review so that you are informed of your options and how your applications would be affected.

☐ I/We hereby request consolidated review.

7. Submittal of this application grants the appropriate city officials the right of entry to the project site during a reasonable hour and, upon proper identification, to the building, structure and/or premise, which is directly related to this application.

8. In each application the burden of proof rests with the applicant, petitioner or proponent.

9. Items with any typewritten information must be 10-point font or larger to ensure legibility of scanned documents.

I/We ________________________________________________________________, owner(s) of the property commonly known as ____________________________________________, do hereby apply for approval of Project Design Review for the above-referenced property. I/We certify that the information provided in this application, including all submittals and attachments, is true and correct to the best of my/our knowledge.
