Type A-1 curb & gutter
See Std Dwg 3-6

Curb widening required only in areas with planter behind curb.

Normal flowline
Grade
Match pavement
Section AC

NOTES:
1. Installation of open curb face frame and grate must be approved by city engineer on a case by case basis.

Problems of floatable material entering storm drainage system by use of this installation must be addressed.

2. See Std Dwg 4-11 for frame and lockable grate details.

Section B-B

Through curb catch basin
