

**GENERAL OFFICE/MEDICAL OFFICE
BUSINESS LICENSE APPLICATION SUPPLEMENT**

You may be asked to produce records such as receipts for disposal services or cleaning services associated with storage of chemicals, flammables and wastewater pre-treatment activities. Please make certain you keep such records.

In addition to the above considerations involving the type of waste produced by your business, both the Lynnwood Fire Marshal's Office and Building Division need certain storage and processing information to be able to approve a building for a specific use. Accurately answering the questions below will facilitate the processing of your business license application.

- | | Yes | No |
|---|--------------------------|--------------------------|
| 1. Do you store any flammables in quantities greater than 5 gallons?
If yes, describe. _____ | <input type="checkbox"/> | <input type="checkbox"/> |
| 2. Do you store chemicals or materials considered hazardous?.....
If yes, describe. _____ | <input type="checkbox"/> | <input type="checkbox"/> |
| 3. Do you use medical gases? | <input type="checkbox"/> | <input type="checkbox"/> |

NOTE: Common cleaners, copy machine toners, etc. need not be described as hazardous materials.

If your business uses photographic or x-ray processing, please answer the following:

4. Photographic and X-Ray processing waste: The Lynnwood Wastewater Treatment Plant treats waste with biological organisms. Excess metals and other pollutants can kill or impair the organisms in the secondary treatment. Photographic and x-ray processing waste and particularly unrecovered silver or cyanide are of particular concern.
- a. What type of film is developed? _____
- b. What chemistry is used? i.e., C-41, etc. _____

- c. Do any chemicals contain cyanide? Yes No
If yes, describe disposal process. _____

- d. Do you have a silver removal system? Yes No
-If yes, what type? Electrolytic Filter
-If no, how do you dispose of solutions which contain silver? _____

- e. Is disposal system discharge tested? Yes No

You are required to maintain records to prove proper disposal or treatment of photographic waste and silver recovery. If you have any questions about the requirements, please call **425.670-6683**.
