

Lynnwood Fire Department Fire Corps Meeting

Lynnwood Fire Department Fire Corps provides opportunities for you to get involved with the fire department and your community. Fire Corps is a component of Citizen Corp that supports fire departments through the use of citizen advocates for non-operational activities. This allows community members opportunities to support their local fire department with their time and talent. Members or the community with differing amounts of time and levels of mobility are encouraged to join.

January 24, 2006
7:00 p.m.
Civic Center
Fire Station
18800 44th Ave W
Lynnwood, WA 98036

Lynnwood Fire Department is looking for a different kind of volunteer. If you are interested in using your skills to make the community safer, this group may be for you.

Fire Corps is a newly established group that aids the fire department by promoting fire and life safety programs in homes, schools, businesses and other community groups. Fire Corp members help the Lynnwood Fire Department in getting life safety messages to many more members of the public than our current resources allow.
