

44th Ave W & Interurban Trail Pedestrian Bridge Grand Opening

Wednesday August 4, 2010 at 2 p.m.
Courtyard Marriott Parking Lot,
4220 Alderwood Mall Blvd, Lynnwood

The new bridge and connecting trail improves safety for pedestrians and bicyclists, completes the Interurban Trail in Lynnwood, and provides better access to the Lynnwood Transit Center from the trail. The bridge crosses 44th Avenue West near Interstate 5. The west end of the bridge connects to the existing Interurban Trail near the Lynnwood Transit Center. The east end of the bridge has a new 1500-foot section of trail connecting the bridge to the existing Interurban Trail at 40th Avenue West. The new pedestrian bridge separates vehicle and pedestrian traffic, helping to improve safety for everyone.

Highlights

- Ribbon Cutting
- Refreshments
- Participants of “First to Cross the Bridge” will lead the first crossing.
